ATTENDEES: Karen Ganey-AAH, Sherri Hanrahan-Bellin College, Laura Janssen-Advocate Aurora, Jenn Leonard-HSHS, Melinda Rose-NWTC, Annie Short-AHEC, Cindy Theys-NWTC Christine Vandenhouten-UWGB, Kelly Verhasselt-Bellin Health, Ann Wasmund-Bellin College, Sherry Willems-HSHS, Debbie Thompson-NWTC

EPIC TRAINING UPDATE – SHERRI HANRAHAN

Epic training through Advocate Aurora (AAH) is no longer an option for students going to other sites. There is limited available space at Bellin Health and HSHS for any additional training. NWTC students do not have Epic hands-on training until they get to the site.

Brian Krogh and Sherri Hanrahan were among those who recently met with Karin Drury from Epic regarding getting a regional training platform for students. They learned Epic does not have an orientation training product that can help with training our students. They help get Epic into the classroom, but do not use a training product.

- Academic use is quite different than training end-users. End training requires separate rules and policies.
- Epic has recommendations on best practice training but it is generic and not specific for students. Every organization can make its own policies.
- The Epic rep was surprised there is not a “test out” if an individual is familiar with Epic.
- The rep will contact her colleagues to see if there is anything Epic can do to assist the GGBHA.

With nothing solid from Epic, the question remains as to how GGBHA students can get Epic trained who are going to hospitals other than AAH. Annie Short asked if possibly AHEC can assist with this training, seeing they are not tied to any hospital or college. They would like to learn the logistics to see if they can offer their services.

Located on AAH’s secured site, they have nine Epic eLearnings that were chosen by their principal trainers. Their students only need to complete the eLearnings one time; however, they can go back and review them anytime. How can the GGBHA access similar modules? Can we get a group rate from Epic? Where would they be stored? **After following up with the Epic rep and Brian Krogh, Annie will schedule a meeting with members to continue this discussion.**

Chris Vandenhouten, Sherri Hanrahan, and Debbie Thompson will be meeting virtually on 6/2/2022 to discuss ways to further streamline the program coordinators page.

Kelly Verhasselt discussed concerns about increasing HIPPA violations and has offered to check with their compliance officer to see if that person would be willing to speak at the schools if the schools wanted this option. Sherri Hanrahan recently attended an event at Children's Hospital of Wisconsin, and they also mentioned an increase in HIPPA violations. They are utilizing a video that was made by several students who had a HIPPA violation. Sherri will contact their rep to see if the video could be linked on the GGBHA website, as real-life stories from actual students are often more impactful.
