### **New Members were welcomed**

### **Guest Speakers – Kari Mueller (NEWAHEC) and Rebecca Deschane (Vice President, Talent Development, New North, Inc.)**

NEWAHEC is looking to re-engage with NE region academic and healthcare agencies. They are applying for a grant and would like to develop a taskforce with members of GGBHA on opportunities to grow and enhance our healthcare. The timeline will depend on the grant which is due in March.

This initiative aims to address critical workforce challenges and enhance collaboration across our region. The four key areas include:

1. **Establishing a Regional Healthcare Alliance** – Strengthening coordination and advocacy efforts.
2. **Attracting & Retaining the Healthcare Workforce** – Developing innovative strategies to address workforce shortages.
3. **Expanding Career Exploration for Secondary & Post-Secondary Students** – Enhancing opportunities to engage the next generation of healthcare professionals.
4. **Continuing High-Quality Clinical Placements** – Ensuring strong partnerships for student training and professional development.

GGBHA members were in support of this work, with the following members volunteering to assist with the initial grant-writing phase: Sherri Hanrahan, Erik Costea, Brian Krogh, Laura Janssen (possible), and Carrie Karz (or Kelly Verhasselt)

### **Review: 2024 Standing Agenda Items**

Please review and download a copy of the updated standing agenda items.

[2025 GGBHA Standing Agenda Items.docx](#)

### **Other Updates:**

**Bellin Health Update:** (S. Hanrahan provided an update for Kelly Verhasselt) They are still working with MCE and academic partners to work out kinks. There was also a concern received regarding the

rovers. Some faculty are logging in for the clinical and then the students are administering medications with them supervising, under their login information. The student needs to be logged into Rover when it is their turn to pass meds.

Discussion from members included the time intensiveness of using the slot system versus the traditional approach in MCE for Bellin Health. Members would like to include

**Aurora Update (Laura Janssen)** - the Atrium will be reopening on March 27th.

**NWTC (Brian Krogh)** - Brian discussed another platform (Complio by American DataBank) has the ability of background checks and clinical requirements integrating with MyClinicalExchange. In the early integration of MCE by AAH I recall that they were working with Viewpoint on doing this. I reached out to our VP rep, and he said he's been trying to do this, but MCE has not been responsive. Please review the drafted letter provided by Brian.
